Bike Safe Workshop

We offer BikeSafe workshops as part of our continuing drive to reduce road casualties.

It's a great opportunity to have your motorcycle skills assessed by one of our advanced police motorcyclists, with the aim of identifying areas of risk, improving your riding and make you a safer/more skilled motorcyclist.

Participants will learn about the significant benefits of investing further time in post-test motorcycle training (IAM, RoSPA and the DVSA Enhanced Rider Scheme). Ongoing training is the key to becoming a safer, more skilled rider and with this is the added benefit that riding a motorcycle becomes more enjoyable.

Book your place online at <https://bikesafe.co.uk/northyorkshire/>

Appeals

An incident occurred in Middleton Tyas Monday 6th February at approximately 16:00. This involved a vehicle described as being silver in colour similar to the size of a Volkswagen Polo, with 2 male occupants. The vehicle has very slowly followed a female at a close distance, who was out running for approximately around 2 miles, where it has then driven back past her. On the rear of the vehicle was a misogynistic statement written in dirt, which we can't write on here due to the vulgar language. However, if you have seen anything or experienced anything similar to this and can help, as this type of behaviour will not be tolerated, please email elliott.brown@northyorkshire.police.uk or call 101, option 2, and ask for Elliot Brown.

Advice

Protect yourself from ATM theft

It's a good idea to scan the area around ATMs before you use them. Be aware of anyone standing close by and always check the machine to see if it's been tampered with before you use it.

Tell-tale signs of ATM fraud

Things to look out for are devices attached to the machine – some are more obvious than others. If you do see something suspicious contact the police and the bank.

Remember, if it doesn't look or feel right then steer clear and, if possible, go inside the bank where it will be safer. And always keep a regular check on your transactions.

Be alert

We know it's not always easy, but try to be aware of anyone near you when you're at an ATM. Being aware of your surroundings and not being distracted makes it harder for people to take advantage and less likely that they'll try to.

Thieves will watch as you key in your PIN or distract you while you're withdrawing cash. Be vigilant. Cover your PIN and keep an eye on your card at all times. If someone taps you on the shoulder or tries to speak to you, just ignore them.

When you've left the ATM, put your card away immediately.

You should also be careful with contactless cards. You can get a card holder to prevent your card details being inadvertently read.
